

CSCE 242 Project

Name: Pic-Share

Description: A site to share images. Where photographers can view, post, and have discussions on their “blog page”. A user can create a portfolio for others to see. They can also go onto other people portfolio and comment or share thoughts. It’ll also potentially have a search feature based off of filters and tags.

Pages: Home/Your Profile, Search, Post, Browse, About Us

Data: We would have a log in for users which would store username and password(and maybe personal information). Along with that a data base of users, and the images(with their captions, tags, and comments) they’ve posted in their respective portfolio(s).
